International Cases

COVID-19 risk assessment by country (Source: Centers for Disease Control and Prevention)

Risk Assessment Level for COVID-19

	Widespread sustained (ongoing) transmission and restrictions on entry to the United States
	Widespread sustained (ongoing) transmission
	Sustained (ongoing) community transmission
	Risk of limited community transmission

China	Level 3 Travel Health Notice
Iran	Level 3 Travel Health Notice
South Korea	Level 3 Travel Health Notice
Italy	Level 3 Travel Health Notice
Japan	Level 2 Travel Health Notice
Hong Kong	Level 1 Travel Health Notice

United States

Communities within the United States with Suspected Community Transmission

US STATE	Community/County Name
California	Contra Costa County
	Los Angeles County
	Santa Clara County
	San Francisco County
	King County (Kirkland, Washington—Life Care Center of Kirkland-- and surrounding areas including Seattle)
Washington	Snohomish County
New York	Westchester County (outbreak centered around New Rochelle, New York)

Probable Community Transmission: County with at least one or more COVID-19 cases that are not travel-associated (not directly linked to travel in high risk countries/areas) or a close contact of a previously confirmed case.

High Risk of Ongoing Community Transmission: County with at least one COVID-19 case of unknown origin and currently the center of outbreak of COVID-19
